Road reporting for Philippine communities

A name with a double meaning

PATAG means a level surface. Read as "pa-tag," it echoes the familiar act of tagging someone online: a quick way to call attention to a road problem.

OUR MISSION

Empower communities to report road problems, connect citizens with local authorities, and turn reports into action.

I–tag ang lubak.
Tungo sa patag.

A web and mobile civic platform

PATAG connects Philippine communities with road issue reporting. Citizens share photos, pinpoint GPS or map locations, and describe road damage. LGUs review reports and coordinate repairs. Status updates and a public map make progress visible.

Citizens and motorists

A familiar way to flag road damage and help make streets safer.

Local Government Units

An organized view of reports, verification and repair priorities.

Road maintenance teams

Location-based reports for inspections, repairs and progress updates.

BRAND CHARACTER Friendly, trustworthy, proactive and community-driven

02

The identity system

A familiar character and an everyday expression connect the brand to the people who use it.

FOUR ELEMENTS

01 **Mascot**

The cone and phone connect road awareness with citizen reporting. The smile brings warmth to a civic service.

02 **Logotype**

The mascot becomes the first A in PATAG. The second A stays a letter, keeping the name easy to recognize.

03 **Typography**

Lilita One gives PATAG its rounded, friendly voice. Arial brings clarity to information and updates.

04 **Color**

Ink conveys trust and clarity. Tangerine adds energy and a familiar connection to roadwork.

Logo

A traffic-cone character makes road reporting feel approachable.
The phone links the mascot to the act of tagging a road issue.

The silhouette carries the identity in both light and dark settings. The face, phone and cone band are open cutouts.

Logotype

PATAG is set in Lilita One, with the mascot forming the first A.
The character and the lettering share one baseline.
